THE PERFORMANCE ...

Introducing ...

Belesta® Friction Reducing Lubrication Systems

Belesta® LC - the Material of Choice for Gearboxes

Belesta® LC2 - the material of choice for enhancing the performance of engines, compressors, turbines & hydraulic systems

Belesta® CSL - an ester-modified chain and slideway lubricant with excellent creep and anti-fling properties.

Belesta® XPG - A lithium complex high temperature grease which provides outstanding load-carrying capability together with superior resistance to oxidation and water wash-out.

Gearboxes

- Reducing energy consumption
- Reducing temperature
- Reducing wear
- Reducing vibration
- Reducing noise

Hydraulics

Belesta Advanced Lubricant Technology

If this Race Car can break the Daytona track record in qualifying while using Belesta how much can it do to help the efficiency and energy in your equipment and machinery like Gearboxes? Belesta is a new force in the field of attractive lubrication of Machinery and Equipment.

(Martin, who scored his first career KONI Grand Sport (GS) pole position Thursday, set a time of 1:59.555 (107.198 mph), the first driver ever in KONI competition to break the one-lap, two-minute mark in qualifying.)

Belesta offers a comprehensive range of friction reducing lubrication products which dramatically out-perform traditional lubricants, providing industry with a cost effective solution to **maintenance challenges**.

Utilizing attractive lubricant technology, **Belesta** reduces the risk of metal to metal contact thereby minimizing noise, vibration and wear, at the same time increasing efficiency in:

- **Gearboxes**
- **Hydraulics**
- **Turbines and Compressors**
- **Bearings**
- **Chains and Slideways**

The Belesta Difference: Offering cost savings plus safety and environmental benefits:

Belesta products are engineered to extend equipment life and improve energy efficiency by reducing friction, noise, vibration, temperature and wear thereby helping to conserve the environment.

Thank you for taking the time to read about our new Belzona® product, Belesta Advanced Lubricants. If you

- Reducing Temperature
- Reducing Noise
- Saving Power

Turbines and Alternators

- Preventing Forced Outages
- Preventing Thermal Trips
- Improving Performance

Compressors & Blowers

- Saving Energy
- Improving Performance

Chain Drives

- Increasing Life
- Increasing Lubrication Interval
- Reducing Noise

have any questions about please give me a call or respond to this email. I'll be glad to drop by the specific Belesta product/application flyer for your machinery or component needs.

As always, I can be contacted at (513) 470-1091 for any Belzona® application as well.

Kind Regards,

Camilla J. Page

Belzona & Belesta Technical Consultant
